

Professional and Dedicated Team

At Little Scholars Nursery the team prides itself on being caring, skilled and highly qualified. All of our Practitioners are trained to level 3 In Early Years or above we have a nursery assistant who is trained to level 2 in Early Years. We are all food hygiene trained. Most of our staff are paediatric first aid trained. We encourage our team to have and attend specialised training courses to further their personal development and to enhance the nursery provision.

All staff are checked by the DBS (Disclosure and Barring Service). We all regularly have training sessions on safeguarding FGM, CSE and Prevent.

Carita - Nursery Manager

Carita has been a part of Little Scholars Nursery since 2010. Carita has worked in with a variety of different ages and positions within the nursery until she was promoted to manager. Whilst working for Little Scholars Nursery Carita has gained her Foundation degree in Youth and Childhood studies and her level 5 in management. Carita also takes on a number of additional roles within the nursery which are highlighted on the parent information boards with in the nursery itself.

Tina–Deputy Manager

Tina has worked at Little Scholars Nursery since 2014 and has gained both her level 2 diploma in children’s learning and development and level 3 diploma in children’s learning and development whilst working for the nursery. Tina also takes on a number of additional roles within the nursery which are highlighted on the parent information boards with in the nursery itself.
